

Composites

Composite Materials

CBOL offers composite materials designed for aerospace, automotive and industrial applications. These products improve by reducing weight, saving cost. Composites also solve design problems based on their superior flexibility and the ability to be customized for a specific requirement.

These quality composites and related products include **vacuum bagging support materials, reinforcements, insulation molding compounds and prepregs, thermal and acoustic insulation materials, plastic extrusions, seals, strips and silicone sheets.** All products can be supplied in small quantities and custom sizes as well as semi-finished products.

Insulated Thermal Sheets

Value-Added

CBOL coordinates the logistics for all ocean, air and ground transportation. We offer technical, business, and consulting support for companies operating in the rapidly changing international marketplace. We provide efficient export packaging including Hazmat packing and shipping, IATA documentation, time and temperature controlled shipping, JIT/AOG, custom packaging, as well as required export licenses. We can supply these products in small quantities for immediate availability and contract quantities for routine maintenance. Our buying power allows us to achieve lower freight costs by consolidating shipping containers.

Certified Quality

CBOL supplies products produced by approved sources that are certified to meet all U.S. and international standards for manufacturing and quality control. CBOL's network of approved sources brings you a wide selection of composite compound products, which are delivered when and where you need them. Our suppliers operate under ISO 9001 guidelines.

Product Line

- Carbon Fabrics
- Fiberglass Fabrics
- Graphite Dry Fabrics
- Prepregs
- Filler & Microballoons
- Nylon Bagging Films
- Release Films
- Breather Fabrics
- Specialty Resins
- Mold Releases
- Toolings
- Aluminum & Nomex Honeycomb Cores
