**Electronics**

CBOL is a specialized electronics distributor providing a broad range of electronic and electrical components. We supply high-quality products and services to leading aerospace, military, commercial manufacturers, and OEMs worldwide. We will help you design, implement and manage the development of customized solutions to meet your evolving needs.

**Parts and Services**

CBOL provides commercial and MIL-SPEC electronic components, electronic hardware and electrical products from the world's leading manufacturers. We have built a strong reputation as specialists supporting our customers' needs with hard-to-find, long lead-time and obsolete components. Our network of suppliers can provide value-added interconnect and electro-mechanical components and offers the best in design, development and production of new, developing technologies.

**High Power Module Components**

**Value-Added**

CBOL coordinates the logistics for all ocean, air and ground transportation. We offer technical, business, and consulting support for companies operating in the rapidly changing international marketplace. We provide efficient export packaging including Hazmat packing and shipping, IATA documentation, kitting, LTA/JIT/AOG, as well as required export licenses. Our buying power allows us to achieve lower freight costs by consolidating shipping containers.

**Certified Quality**

CBOL supplies products produced by approved sources that are certified to meet all U.S. and international standards for manufacturing and quality control. CBOL's network of approved sources brings you a wide selection of electronic products, which are delivered when and where you need them. And, our suppliers operate under ISO 9001 guidelines.
