

Worldwide Network

CBOL utilizes a global network of manufacturing partners to supply the automotive, aerospace and industrial machinery industries with world class rubber and plastic parts. As a specialty supplier, we are able to source a wide range of precision products produced with state-of-the-art molding and extrusion technologies designed to meet the most demanding OEM specifications.

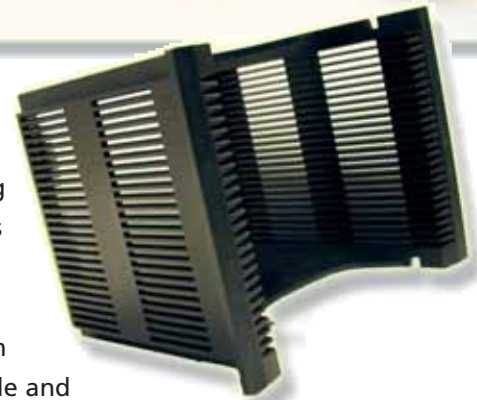

Our manufacturing capabilities include:

- ▶ Compression molding, transfer molding, vacuum molding and injection molding
- ▶ Wide variety of rubber hoses including radiator and flouride hoses manufactured with automatic double extruders and high speed braiding machines
- ▶ Dynamic Vibration Testing of hydraulic mountings to detect defects from fatigue and aging
- ▶ Advanced multi-extrusion system for weatherstripping made from recyclable materials
- ▶ Engineered plastics for automotive and industrial components

Value-Added

CBOL's value-added services include design and manufacturing of precision molds, tools and dies and secondary processing such as machining and assembly. A CBOL specialist can work with you from concept to blueprint to first article and production, ensuring that each part will meet your precise requirements. And whether you require special packaging, labeling, consignment terms or Just-In-Time delivery, we are ready to design a supply package that meets your needs and reduces your overall product cost.

Certified Quality

CBOL's manufacturing partners produce products certified to meet domestic and international standards for manufacturing and quality control. Each facility is QS 9000 and ISO 9001 quality certified with capabilities to generate PPAP and process control documentation using electronic monitoring devices. Our quality control objective is zero defects beyond Six Sigma.

CBOL Corporation... offering U.S. customers cost savings through participation in the global market.

Product Types

<u>Anti-Vibration</u>	<u>Weatherstripping</u>	<u>Hoses</u>	<u>Plastics</u>	<u>Other</u>
Engine Mount	PVC Molding	Water Hoses	Wafer Cassettes	Oil Seals
Strut Mount	Brim Cover	Oil Hoses	Rim Bumpers	Rubber Gaskets
Bushing	Windshield	Air Hoses	Reinforcement	PVC Gaskets
Lower Arm	Door Seal	Heater Hoses	Solar Power Junction Boxes	Diaphragms
Links	Glass Run	BPT Hoses	Garnish	
Dynamic Damper	Fuel Hoses	Power Steering Hoses	Seat Panel	
Hydraulic Mount and Bushing	Mold/Die Making	Side Protectors	Fasteners	

Processes

- Injection Molding
- Extrusion
- Compression Molding
- Vacuum Compression
- Tool and Die Making
- Printing
- Coloring
- Trimming
- Sizing

Local Purchasing – International Sourcing
 CBOL Corporation is a U.S.-based full service provider supplying high quality, precision manufactured products and engineering services to its OEM customers in the automotive, aerospace, defense and electronics industries. CBOL offers U.S. customers turnkey production of quality products at significant cost savings realized through active participation in the global manufacturing market.

Certified Quality
 CBOL assures quality to its customers by offering products from manufacturing facilities with ISO 9000 and QS 9000 certification.

Delivered To Your Dock
 CBOL coordinates all ocean, air and ground transportation as well as required import duties and customs clearance documentation. Our buying power allows us to achieve lower freight costs by consolidating shipping containers. We ship all products directly to your loading dock according to a designated shipping schedule.
